INDEPENDENT AUDITOR'S REPORT

Board of Supervisors and Grand Jury
County of Shasta
Redding, California

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Shasta, California (the "County"), as of and for the year ended June 30, 2008, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Children and Families First Commission (Commission) and the Shasta Regional Transportation Planning Agency (RTPA), which represents 100 percent of the assets, 100 percent of the net assets and 100 percent of the revenue of the County's aggregate discretely presented component units. Those statements were audited by other auditors whose reports, dated October 20, 2008 and October 1, 2008 for the Commission and the RTPA, were unqualified, and our opinion, insofar as it relates to the amounts included for the Commission and for the RTPA is based solely on the report of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, based on our audit and the reports of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of the County of Shasta, as of June 30, 2008, and the respective changes in financial positions and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Board of Supervisors and Grand Jury
County of Shasta

In accordance with *Government Auditing Standards*, we have also issued our report under separate cover, dated December 23, 2008 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis and other required supplementary information are not a required part of the basic financial statements, but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted primarily of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit this information and express no opinion on it.

Our audit was made for the purpose of forming an opinion on the financial statements that collectively comprise the County of Shasta's basic financial statements. The accompanying information identified in the table of contents as combining and individual nonmajor fund statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements have been subjected to the auditing procedures applied by us in the audit of the basic financial statements and, in our opinion, based on our audit, such information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

MANAGEMENT'S DISCUSSION & ANALYSIS (MD &A)

COUNTY OF SHASTA

Management's Discussion and Analysis June 30, 2008

Within this section of Shasta County's annual financial report, the County's management provides narrative discussion and analysis of the financial activities of the County for the fiscal year ended June 30, 2008. Readers are encouraged to consider the information presented here in conjunction with the accompanying financial statements and disclosures following this section. The discussion focuses on the County's primary government and, unless otherwise noted, does not include separately reported component units.

FINANCIAL HIGHLIGHTS

- The assets of the County exceeded liabilities at the close of the most recent fiscal year by \$246,511,984 (*net assets*). Of this amount, \$73,429,660 (*unrestricted net assets*) may be used to meet the County's ongoing obligations to citizens and creditors in accordance with the County's fund designation and fiscal policies. The remaining net assets are \$63,582,457 restricted for specific purpose (*restricted net assets*), and \$109,499,867 invested in capital assets, net of related debt. The government's total net assets increased by \$13,961,952.
- The County's net assets invested in capital assets, net of related debt, increased by \$11,149,184.
- The County's governmental funds reported combined fund balances of \$116,714,698 an increase of \$11,220,463 in comparison with the restated prior year.
- The County's unreserved fund balance for the governmental funds was \$93,439,038, or 34% of total general fund expenditures.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements comprise three components 1) **Government-wide** financial statements; 2) **Fund** financial statements and 3) **Notes** to the basic financial statements. This report also contains other **Supplementary Information** in addition to the basic financial statements.

Government-wide Financial Statements are designed to provide readers with a broad overview of County finances, in a manner similar to a private-sector business.

- The *statement of net assets* presents information on all County assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.
- The *statement of activities* presents information showing how net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

COUNTY OF SHASTA

Management's Discussion and Analysis June 30, 2008

Both of these government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or in part a portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the County include general government, public protection, public ways and facilities, health and sanitation, public assistance, education, recreation and interest expense. The business-type activities of the County include the Fall River Mills Airport, Solid Waste Disposal, West Central Landfill and County Service Areas that provide water and sewer services. Fiduciary activities are not included in the government-wide statements since these assets are not available to fund County programs.

The County's financial reporting includes the funds of the County (primary government) and organizations for which the County is accountable (component units). Most of these legally separated organizations operate like County departments, serve as financing vehicles for County services (revenue bond issuers), or are governed by a board that is substantively identical to the County's board. These organizations are blended into the primary government for financial reporting purposes and include: lighting districts, permanent road divisions, county service areas, the Shasta County Water Agency, the Shasta County Air Quality Management District, the Shasta County Fire Protection District, the Shasta County Redevelopment Agency, The Shasta Joint Financing Authority, the In-Home Supportive Services Public Authority, and the Sheriff's Inmate Welfare Fund. Other organizations operate more independently or provide services directly to the citizens, though the County remains accountable for their activities. These organizations, the Children and Families First Commission and the Regional Transportation Planning Agency, are included in the County's overall reporting entity but are reported separately from the primary government. More complete information about the County's component units can be found in Note 1.

Fund Financial Statements A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate finance-related legal compliance. All of the funds of the County can be divided into three categories: *governmental funds*, *proprietary funds* and *fiduciary funds*.

Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental funds financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a county's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term

COUNTY OF SHASTA

Management's Discussion and Analysis

June 30, 2008

financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The County maintains individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures and changes in fund balances for the General Fund; the Public Safety Fund; and the other governmental funds combined into a single, aggregated column. Individual fund data for each of these non-major governmental funds is provided in the form of *combining statements* elsewhere in this report.

Proprietary funds are maintained two ways. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The County uses enterprise funds to account for the airport, solid waste disposal, landfill, water and sewer operations. *Internal services funds* are an accounting device used to accumulate and allocate costs internally among the County's various functions. The County uses five internal service funds to account for its fleet maintenance, risk management, information systems, facilities management, and County utilities functions. Because these services predominantly benefit governmental rather than business-type functions, they have been included within *governmental activities* in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The Solid Waste Disposal, West Central Landfill, and the Fall River Mills Airport operations are considered to be major funds of the County; and are separately presented with combined other enterprise funds and combined internal service funds in the proprietary funds financial statements. Individual fund data for the other enterprise and internal service funds is provided in the form of *combining statements* elsewhere in this report.

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs.

Notes to the Financial Statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Required Supplementary Information provides the schedule of funding progress for the County Employees Retirement Plan and Other Post Employment Benefits. Also presented are the County's General Fund and Major Special Revenue Funds budgetary schedules. The County adopts an annual appropriated budget for each fiscal year. A budgetary comparison schedule has been provided for the General Fund and the Public Safety Fund to demonstrate compliance with this budget.

Other Supplementary Information presented is the combining statements referred to earlier in connection with the non-major governmental, enterprise, and internal service funds.

COUNTY OF SHASTA

Management's Discussion and Analysis June 30, 2008

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net assets may serve over time as a useful indicator of a government's financial position. In the case of the County, combined assets exceeded liabilities by \$246,511,984 at the close of the most recent fiscal year. Of these combined net assets 44% reflects the County's invested in capital assets, net of related debt. Another 26% of the County's net assets are subject to external restrictions on how they may be used. In addition, a portion of the remaining 30%, referred to as unrestricted, is dedicated for spending on specific programs or services.

Total Net Assets	\$ 218,304	\$ 207,908	\$ 28,208	\$ 24,642	\$ 246,512	\$ 232,550

A significant portion of the County's net assets \$73,429,660 represents unrestricted net assets, which may be used to meet the County's ongoing obligations to citizens and creditors. The majority of these net assets have been designated for specific purposes and are not available for general use.

Another significant portion of the County's net assets \$109,499,867 reflects the amount invested in capital assets (e.g. land and easements, structures and improvements, infrastructure, and equipment), less any related debt used to acquire those assets. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The restricted portion of the County's net assets \$63,582,457 represent resources that are subject to external restrictions on how they may be used. At the end of the current fiscal year, the County reported positive balances in all three categories of net assets, both for the County as a whole, as well as for its separate governmental activities and business-type activities.

COUNTY OF SHASTA

Management's Discussion and Analysis June 30, 2008

The County's net assets increased by \$13,961,952 during the current fiscal year. The net increase in unrestricted net assets represent the degree to which increases in ongoing revenues exceeded increases in ongoing expenses.

FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS

As described earlier, the County uses *fund accounting* to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The general government functions are contained in the General, Special Revenue, Debt Service, and Capital Project Funds. Included in these funds are the special districts governed by the Board of Supervisors. The focus of the County's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the County's financing requirements. In particular, *unreserved fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

COUNTY OF SHASTA

Management's Discussion and Analysis June 30, 2008

At June, 30, 2008, the County's governmental funds reported combined fund balances of \$116,714,698. Of these combined fund balances, \$93,439,038 constitutes *unreserved fund balance of the General and Special Revenue Funds*, which is available to meet the County's current and future needs. The remainder of fund balance, \$23,275,660 is *reserved* to indicate that it is *not* available for new spending. The reserved amount is to liquidate contractual commitments of the period.

The General Fund is the chief operating fund of the County. At June 30, 2008, unreserved fund balance was \$43,017,686, while total fund balance reached \$54,306,918. As a measure of the General Fund's liquidity, it may be useful to compare both unreserved and total fund balance to total fund expenditures. Unreserved fund balance represents 27% of total General Fund expenditures, while the total fund balance represents 34% of total General Fund expenditures.

The County's management also designates (earmarks) unreserved fund balance to a particular function, project, or activity. Fund balance may also be designated for purposes beyond the current year. However, designated fund balance is available for appropriation at any time. Of the \$43,017,686 General Fund unreserved fund balance, 48% is designated.

Total governmental funds Fund Balance increased by \$11,220,463 in comparison with the restated prior year. The major governmental funds had changes in fund balance as follows: General Fund increased \$4,315,554 and Public Safety Fund decreased \$778,412. The non-major governmental funds increased by \$7,683,321.

The following table presents the amount of revenues from various sources as well as increases or decreases from the prior year.

Proceeds from sale of capital assets are the result of sale transactions involving property that was not needed for public use by the County.

Proprietary funds reporting focuses on determining operating income, changes in net assets (or cost recovery), financial position, and cash flows using the full accrual basis of accounting.

Enterprise funds report the business-type activities of the County. Enterprise funds are used to account for its solid waste, landfill, airport, and water/sewer operations.

The net assets of the enterprise funds increased \$3,565,466 over the restated prior fiscal year. Operating revenues increased 18% and operating expenses decreased 32%. The substantial decrease to operating expenses was due to decreased depreciation resulting from the percentage of fill for the newly opened Unit #4 at the landfill.

Internal service funds are an accounting device to accumulate and allocate costs internally among the County's various functions. Internal service funds are used to account for its information technology services, vehicle maintenance, risk management, facilities maintenance, and utilities functions.

The net assets of the internal service funds decreased \$5,467,408 over the restated prior fiscal year. Operating revenues decreased 3% and operating expenses increased 43%. The increase in operating expenses was due to excess Workers Compensation and general liability insurance reserves being refunded to departments.

GENERAL FUND BUDGETARY HIGHLIGHTS

Over the course of the year the Board of Supervisors revised the County's budget many times. Each time a grant or specific revenue enhancement is made available to a County program, new appropriations and a budget amendment are required.

The mid-year review is a formal process by which each department is analyzed for expense and revenue trends. Adjustments are recommended where indicated and monitored for the remainder of the year. Unless there is some unforeseen and unusual circumstance that causes a budget overrun, a draw on the Contingency Reserve is not recommended.

Differences between the original budget and the final amended budget resulted in an \$8,153,080 decrease in appropriations. The components of appropriations variance are briefly summarized as follows: \$528,334 increase in general government; \$998,525 decrease in public protection; \$1,442,755 decrease in public assistance; \$6,182,297 decrease in public health and sanitation; \$70,163 increase in education; \$128,000 decrease in recreation.

Even with these adjustments, actual expenditures were \$15,706,625 below final budget amounts. Resources available for appropriation were \$4,352,783 above final budget amounts. Major components of this increase was from grants received and actual taxes collected.

Differences between the original budget and the final amended budget is summarized in the table below:

CAPITAL ASSETS

The County's investment in capital assets for its governmental and business type activities as of June 30, 2008, amounted to \$168,271,122 (net of accumulated depreciation). This investment in capital assets includes land, structures and improvements, leasehold improvements, equipment, and infrastructure (roads and bridges). The total increase in the County's investment in capital assets for the current fiscal year was \$10,599,205 [7%].

The following table shows the County's total investment in capital assets for governmental and proprietary funds.

DEBT ADMINISTRATION

At the end of the current fiscal year, the County had total debt obligation outstanding of \$57,593,478. Of this amount, \$52,610,000 comprises bonds that are secured by the County's lease rental payments and other dedicated sources of revenue, and \$1,116,661 of special assessment debt secured by property subject to the assessment. The remainder of the County's debt represents loans secured solely by specified revenue sources.

The following table shows the composition of the County's bonds and notes outstanding for governmental and proprietary funds.

Reductions of the County's total outstanding debt included principal payments of \$1,766,507 and amortization of bond premium of \$46,995 with \$2,575,722 in interest expense for governmental activities and principal payments of \$736,477 with \$147,384 in interest expense for business-type activities.

Other obligations include compensated absences (accrued vacation and sick leave), workers' compensation and general liability insurance claims liability, and the landfill closure/postclosure care costs liability. More detailed information about the County's long-term liabilities is presented in notes to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The County's fiscal year 2008-09 budget takes into consideration the overall financial health of the County and related impacts of the California State Budget. The Governor's Budget reduced funding that supports activities by local governmental agencies. Such programs include law enforcement, realigned mental health, public health and indigent health/social services programs, libraries, and housing.

COUNTY OF SHASTA

Management's Discussion and Analysis June 30, 2008

On November 2, 2004, California voters approved Proposition 1A, which rolled back the Vehicle License Fee (VLF) rate from 2 percent to 0.65 percent of the vehicle value. Funding for local governments to make up the rate difference is provided through a reallocation of property tax from schools and community colleges to cities and counties. Due to the continuing economic downturn, the County has projected, in its 2008-09 budget, that Property Taxes in Lieu of VLF will remain static, or \$17 million.

Proposition 1A also suspended payment on state-imposed mandates to counties, cities and special districts. The State Budget defers the annual payment of old mandate claims (pre July 2004), while appropriating \$12.8 million for payment of current mandate claims.

The County's Budget took into consideration the impact of the State's fiscal crisis on County revenue. These impacts include the following:

Administration of Justice, 1) 10 percent reduction in Citizens' Option for Public Safety (COPS); 2) 10 percent reduction in Juvenile Justice Crime Prevention Act funding; 3) 10 percent reduction in Booking Fee subventions; 4) 10 percent reduction in Juvenile Probation and Camps Funding; 5) Zero funding for the Mentally Ill Offender Crime Reduction Grant (MIOCR); 5) \$10 million reduction Statewide to the California Methamphetamine Enforcement Teams (CAL-MMET);

General Government, 1) 10 percent reduction in Williamson Act subventions; 2) \$75 million reduction in State Mandate reimbursements (deferred pre-July 2004 claims); 3) \$85.6 million appropriated Statewide for the February Presidential Primary; 4) \$1.7 million reduction to Statewide Library Assistance; 5) Shifted \$350 million from local Redevelopment Agencies (ERAF shift);

Health and Human Services, 1) \$106.8 million reduction (state and federal funds) for county administration of Medi-Cal; 2) \$20.9 million reduction for county administration of Food Stamps; 3) \$12.7 million reduction to county administration of In-Home Supportive Services; 4) \$60 million reduction to CalWORKS employment services funding; 5) \$40 million reduction to CalWORKS Pay for Performance Incentives; 6) \$11.4 million reduction to Adult Protective Services; 7) Reduces funding for Proposition 36 and the Offender Treatment Program by a combined \$12 million; 8) 10 percent reduction to Medi-Cal provider rates; 9) \$3.854 reduction from California Children's Services (CCS); 10) 10 percent reduction to Child Health and Disability Prevention Program (CHDP); 11) Reduction of \$6.9 million for State Pandemic Flu planning; 12) \$13 million reduction to mental health managed care; 13) Eliminates \$9.8 million that assists counties with the purchase of State Mental Health Hospital beds;

Land Use and Transportation, 1) Funds \$286 million in Proposition 42 proceeds for maintenance, rehabilitation, and storm damage repair to improve the local transportation system; and 2) Counties will receive \$63 million in Proposition 1B Local Streets and Roads funding for safety, congestion relief, preservation, and transit improvement projects on the local system.

COUNTY OF SHASTA

Management's Discussion and Analysis

June 30, 2008

In addition to the above statewide programmatic reductions, the State is managing its short-term cash needs by delaying reimbursement to counties. Shasta County must continue to provide service regardless of receipt of State allocations. When County operating funds run into cash flow shortages, they must borrow from the County Treasury. This results in a negative interest apportionment. The State does not pay interest on the late payments, with the exception of deferred mandates. In essence, the County is "loaning" the State funds, at a cost to the County. This is either in reduced interest earnings, or negative interest.

On August 22, 2006, the Shasta County Board of Supervisors adopted Resolution No. 2006-122, which authorized an agreement with the City of Redding to transfer ownership of the Shasta County Library-Redding Main to the City of Redding and authorized an agreement with the Cities of Redding and Anderson for the City of Redding to operate the Anderson and Burney Branch Libraries. The City of Redding will operate the Shasta Public Library System for 40 years from the date of the opening of the new Library to the public. The County's contribution to the public library system will exceed \$1.2 million in FY 2008-09.

Workers compensation, PERS retirement, health insurance rate increases, and retiree health care continue to impact the County. The 2007 actuarial indicated that the County's self-insured workers compensation program was super-funded; that is, the program's assets exceed the expected loss. In December 2007, the Board of Supervisors adopted an 80 percent confidence level for the County's self-insured workers' compensation and liability insurance programs. The County is committed to maintaining a prudent reserve.

In addition to adopting an 80 percent confidence level, the Board of Supervisors approved a plan to refund excess reserves in the insurance funds and to charge for retiree health care costs (Other Post Employment Benefits, or OPEB). Charges for the self-insured programs and for OPEB are on the same base, a percentage of payroll costs.

The County of Shasta provides postretirement medical and dental benefits to eligible employees who retire directly from the County. Eligible retirees pay a portion of the medical premium based on the PEHMCA (CalPERS medical program) "unequal method." The remaining premium is shared by the County and active employees in accordance with bargaining agreements. Like most governmental agencies, the County pays for these postretirement benefits on a "pay-as-you-go" basis. This means that OPEB costs are ignored while an employee renders service and recognized only after the employee retires.

GASB 45 requires governmental agencies to conduct an actuarial valuation of the liability for OPEB and report them on their financial statements. The valuation is now complete; the County's Unfunded Actuarial Liability as of June 30, 2007, is \$140 million. The Unfunded Actuarial Accrued Liability is the excess of the Actuarial Accrued Liability over Plan Assets. This represents the amount of the Actuarial Accrued Liability at the valuation date that still must be funded.

COUNTY OF SHASTA

Management's Discussion and Analysis June 30, 2008

Although GASB does not require that counties pre-fund their OPEB liability, Shasta County is taking positive steps towards addressing OPEB. The action plan includes the establishment of two irrevocable OPEB Trusts with initial funding of \$6 million each; implementing a one percent charge, as a percent of payroll, effective July 1, 2008; advocating for legislative changes to PEMHCA to give counties greater flexibility in establishing a tiered benefit system; and considering OPEB cost avoidance through labor negotiations. Within available resources the County will incrementally increase the payroll charges for OPEB which will pass a portion of this expense to state and federal programs when appropriate.

The total unfunded liability for the PERS retirement plans is \$38.8 million. As of June 30, 2007, the Miscellaneous Plan has an unfunded liability of \$18 million. The safety plan has an unfunded liability of \$20.8 million. Based upon PERS *negative* return of 2.4 percent in 2008, and the continuing decline in the stock market, the County expects to pay increasingly higher employer contributions to PERS. This is in stark contrast to one year ago when we were projecting the Miscellaneous Plan would be fully funded by June 2010.

Any reduction in the County's workforce will further compound the cost of future retirement benefits. A component of the cost is recovered by employee contributions. Additionally, to the extent that the County is picking up the employee contribution, the ever increasing cost of retirement reduces resources available for service delivery.

Total Fund Balances - Governmental Funds (page 23)	\$ 116,714,698
Amounts reported for governmental activities in the statement of net assets are different because:	
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the governmental funds.	134,112,420
Other long-term assets are not available to pay for current-period expenditures and, therefore, are deferred in the governmental funds.	
Unavailable revenues	11,740,879
Other post employment benefits asset	105,255
Long-Term Debt that has not been included in the governmental fund activity.	(53,636,714)
Interest on outstanding debt not due and payable in the current period is not accrued in the governmental funds.	(622,241)
Governmental funds report the effect of issuance costs when debt is first issued, whereas these amounts are deferred in the Statement of Net Assets. This amount is the unamortized portion of bond issuance costs.	1,208,305
Compensated absences are not accrued in the Governmental Funds.	(7,764,879)

Reconciliation of the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances to the Government-Wide Statement of Activities For the Year Ended June 30, 2008

Net Change in Fund Balances - Total Governmental Funds (page 25)	\$ 11,220,463
Amounts reported for governmental activities in the Statement of Net Activities are different because:	
Governmental funds report capital outlays as expenditures.	11,087,530
In the Statement of Activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense.	(5,522,123)
Governmental Funds report the disposal of assets only to the extent that proceeds are received from the sale. In the Statement of Net Activities, a gain or loss is reported for each disposal. This is the Net book value of the assets which were disposed.	(41,070)
Revenues in the Governmental Funds previously reported in the Statement of Activities	(2,541,082)
Repayment of note and bond principal is an expenditure in the Governmental Funds, but the repayment reduces long-term liabilities in the Statement of Net Assets.	1,766,507
Interest on outstanding debt is reported as an expenditure when due in the Governmental Funds, but is accrued in the Statement of Activities.	64,797
Governmental funds report the effect of issuance costs when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. This amount is the current year amortization of bond issuance costs.	(56,212)
Compensated absences in the Statement of Activities is reported as an expense, but is not reported in the Governmental Funds.	(220,171)
Internal Service Funds are used by management to charge the cost of certain activities to individual funds. The net revenue (expense) of the internal services funds is reported with Governmental Activities.	(5,467,408)
Other post employment benefits are reported as an expense when contributions are made in the governmental funds, but are deferred assets for contributions made in excess of required amounts.	105,255
Change in Net Assets of Governmental Activities (page 22)	<u>\$ 10,396,486</u>

NOTES TO FINANCIAL STATEMENTS

COUNTY OF SHASTA

Notes to Financial Statements June 30, 2008

Note 1: Summary of Significant Accounting Policies

The Reporting Entity

The County of Shasta (the "County") is a legal subdivision of the State of California and was established as a general law County in 1850. The County's powers are exercised through a five member Board of Supervisors (the "Board") that, as the governing body of the County, is responsible for the legislative and executive control of the County. The County provides various services on a countywide basis including public protection, public assistance, health and sanitation, recreation, and general government services.

The accounting methods and procedures adopted by the County conform to accounting principles generally accepted in the United States of America as applied to governmental entities. The accompanying financial statements present the activities of the County and its component units, entities for which the County is considered to be financially accountable under the criteria set by Governmental Accounting Standards Board (GASB) Statement No. 14, as amended by Statement No. 39.

A. **Component Units**

The governmental reporting entity consists of the County (primary government) and its component units. Component units are legally separate organizations for which the Board is financially accountable or other organizations whose nature and significant relationship with the County are such that exclusion would cause the County's financial statements to be misleading or incomplete. Financial accountability exists if a primary government appoints a voting majority of an organization's governing board *and* is either able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government. A primary government may also be financially accountable for governmental organizations with a separately elected governing board, a governing board appointed by another government, or a jointly appointed board that is fiscally dependent on the primary government.

The basic financial statements include both blended and discretely presented component units. The blended component units, although legally separate entities are, in substance, part of the County's operations and so data from these units are combined with data of the primary government for purposes of reporting in the accompanying basic financial statements. The discretely presented component units, on the other hand, are reported in a separate column in the government-wide financial statements to emphasize their legal separation from the County.

Notes to Financial Statements

Note 1: **Summary of Significant Accounting Policies** (continued)

A. **Component Units** (continued)

The *Shasta County Redevelopment Agency* was created in October 1987 and originally was formed in order to maintain and revitalize the communities within Shasta County. The County has since partnered with the Cities of Redding and Anderson in establishing joint-agency redevelopment projects.

The *Shasta Joint Powers Financing Authority* was created on May 29, 1990, as a result of a Joint Exercise of Powers Agreement between the County and the Shasta County Redevelopment Agency. The Authority's purpose is to finance public capital improvements.

The *In-Home Supportive Services (IHSS) Public Authority* assists consumers in finding in-home supportive services personnel, provides training and support for providers and recipients and their families, and performs other functions related to the delivery of in-home supportive services.

The *Inmate Welfare Fund* was established in 1972 under California Penal Code §4025, which authorizes the sheriff of each county to establish, maintain and operate a store (commissary) in connection with the county jail to sell certain supplies to inmates of the jail. Profit from these sales and compensation attributable to the use of pay telephones primarily used by inmates are deposited into this fund and expended by the sheriff for the benefit, education, and welfare of the inmates.

The following legally separate ***discretely presented component units*** are reported in a separate column in the County's government-wide Statement of Net Assets and Statement of Activities:

The *Children and Families First Commission* was established under the authority of Proposition 10, the California Children and Families First Act of 1998. The County Board appointed all members of the Commission. The Board can remove appointed members at will. The Commission accounts for the Proposition 10 allocations and appropriations. The Commission provides most of its services directly to the citizens of the County.

The *Regional Transportation Planning Agency (RTPA)* provides transportation planning services and administers the metropolitan transportation planning organization (MPO) function for local jurisdictions within the County. In 1981, the Agency, the City of Redding, the Redding Area Bus Authority, the City of Anderson, the County of Shasta, and Caltrans approved a Memorandum of Understanding outlining the obligations and responsibilities of the MPO. The Agency's governing body is not substantially the same as that of the County; however, all Agency staff are County employees. Therefore, the Agency is discretely presented in the County's financial report.

COUNTY OF SHASTA

Notes to Financial Statements June 30, 2008

Note 1: **Summary of Significant Accounting Policies** (continued)

A. **Component Units** (continued)

Complete audited financial statements for the discretely presented component units are issued separately and may be obtained at the unit's administrative offices.

Also included in the accompanying basic financial statements as fiduciary funds are assets of numerous self-governed school districts, independent special districts, and other independent agencies for which the County Treasurer acts as custodian of those assets. The financial reporting for these governmental entities, which are independent of the County, is limited to the total amount of cash and investments and other assets, and the related fiduciary responsibility of the County for disbursement of these assets. Activities of the school districts and special districts are administered by separate boards and are independent of the County Board of Supervisors. The County Auditor-Controller makes disbursements upon the request of the responsible school or self-governed district officers. The operations of these entities have been excluded from the basic financial statements as each entity conducts its own day-to-day operations and answers to its own governing board.

B. **New Accounting Pronouncements**

Governmental Accounting Standards Board Statement No. 45

For the fiscal year ended June 30, 2008, the County implemented Governmental Accounting Standards Board (GASB) Statement No. 45, "Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions." This statement is effective for the County for fiscal periods beginning after December 15, 2006.

This Statement requires that governments account for, and report, the annual cost of other postemployment benefits (OPEB) and the outstanding obligation and commitments related to OPEB in the same manner as they currently do for pensions. The Statement does not require that governments fund their OPEB plans, only that they account for them and report them. OPEB generally consist of health insurance and dental, vision, prescription, or other healthcare benefits provided to eligible retirees, including their beneficiaries in some cases.

Implementation of GASB Statement No. 45 primarily impacted the County's government-wide and proprietary funds financial statements for the year ended June 30, 2008. In addition, implementation required additional note disclosure (see Note 13) and required supplemental information (see Required Supplementary Information – Other Post Employment Benefits Plan – Schedule of Funding Progress).

COUNTY OF SHASTA

B. **New Accounting Pronouncements** (continued)

Governmental Accounting Standards Board Statement No. 50

For the fiscal year ended June 30, 2008, the County implemented GASB Statement No. 50, "Pension Disclosures – an amendment of GASB Statements No. 25 and No. 27". This statement is effective for the County for fiscal periods beginning after June 15, 2007.

GASB Statement No. 50 amends GASB Statements 25 and 27 to require defined benefit pension plans and sole and agent employers present the following information related to note disclosures or Required Supplementary Information (RSI):

- Notes to financial statements should disclose the funded status of the plan as of the most recent actuarial valuation date. Defined benefit pension plans also should disclose actuarial methods and significant assumptions used in the most recent actuarial valuation in notes to financial statements instead of in notes to RSI.
- If the aggregate actuarial cost method is used to determine the annual required contribution of the employer (ARC), notes to financial statements should disclose the funded status of the plan, and a schedule of funding progress should be presented as RSI, using the entry age actuarial cost method. Plans and employers also should disclose that the purpose of doing so is to provide information that services as a surrogate for the funded status and funding progress of the plan.
- Notes to financial statements should include a reference linking the funded status disclosure in the notes to financial statements to the required schedule of funding progress in RSI.
- If applicable, notes to financial statements should disclose legal or contractual maximum contribution rates. In addition, if relevant, they should disclose that the maximum contribution rates have not been explicitly taken into consideration in the projection of pension benefits for financial accounting measurement purposes.
- If an actuarial assumption is different for successive years, notes to financial statements should disclose the initial and ultimate rates.

GASB Statement No. 50 amends Statement 25 to require defined benefit pension plans and defined contribution plans to disclose in the notes to financial statements the methods and assumptions used to determine the fair value of investments, if the fair value is based on other than quoted market prices.

COUNTY OF SHASTA

Notes to Financial Statements June 30, 2008

Note 1: **Summary of Significant Accounting Policies** (continued)

B. **New Accounting Pronouncements** (continued)

Governmental Accounting Standards Board Statement No. 50 (continued)

GASB Statement No. 50 amends Statement 27 to require cost-sharing employers to include, in the note disclosures of the required contribution rates of the employer(s) in dollars and the percentage of that amount contributed for the current year and each of the two preceding years, how the contractually required contribution rate is determined (for example, by statute or by contract, or on an actuarially determined basis) or that the cost-sharing plan is financed on a pay-as-you-go basis.

GASB Statement No. 50 also amends Statement 27 to require that, if a cost-sharing plan does not issue a publicly available stand-alone plan financial report prepared in accordance with the requirements of Statement 25, as amended, and the plan is not included in the financial report of another entity, each employer in that plan should present as RSI the schedules of funding progress and employer contributions for the plan (and notes to these schedules). Each employer also should disclose that the information presented relates to the cost-sharing plan as a whole, of which the employer is one participating employer, and should provide information helpful for understanding the scale of the information presented relative to the employer.

More information regarding the County's participation in the Public Employees Retirement System of the State of California can be found in Note 12.

C. **Related Organizations**

Related organizations are excluded from the financial reporting entity because the County's accountability does not extend beyond making appointments. Audited financial statements are available from the respective organizations. Related organizations are described as follows:

Local Agency Formation Commission of Shasta County (LAFCO) is a jointly governed organization composed of members from the County's Board, members from the city councils in the County, and representatives from the independent special districts. LAFCOs are responsible for coordinating changes in local governmental boundaries and conducting studies that review governmental structure.

The *Redding Area Bus Authority (RABA)* was formed under a joint powers agreement between the County, City of Redding, City of Shasta Lake, and City of Anderson. The function of RABA is to provide the most cost effective public transportation system utilizing federal and state funding participation.

C. Related Organizations (continued)

The *Shasta Area Safety Communications Agency* (SHASCOM) was created by a joint powers agreement between the County and the City of Redding. The purpose of SHASCOM is to provide dispatch services for law enforcement and fire and rescue operations.

D. Basis of Presentation

Government-wide Financial Statements

The Statement of Net Assets and Statement of Activities report information about the primary government (the County) and its component units. These statements include the financial activities of the overall government, except for fiduciary activities. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Internal balances in the Statement of Net Assets have been eliminated, with the exception of those representing balances between the governmental activities and the business-type activities. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees charged to external parties.

The Statement of Activities presents a comparison between direct expenses, indirect expenses and program revenues for each function of the County's governmental activities and for each segment of the business-type activities. Direct expenses are those that are specifically associated with a service, program, or department and are therefore clearly identifiable to a particular function or segment. Indirect expenses for centralized services and administrative overhead are allocated based on the annual County-wide Cost Allocation Plan and are presented separately to enhance comparability of direct expenses between governments that allocate direct expenses and those that do not. Program revenues include a) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Revenues that are not classified as program revenues, including *all* taxes and interest, are presented instead as general revenues.

D. **Basis of Presentation** (continued)

Fund Financial Statements

Separate fund financial statements provide information about the County's funds, including fiduciary funds and blended component units. The focus of governmental and proprietary fund financial statements is on major funds and each major fund is presented in a separate column. Non-major funds and internal service funds are aggregated and presented in single columns.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as investment earnings, result from nonexchange transactions.

The County reports the following major governmental funds:

- The *General Fund* is the County's primary operating fund. It accounts for all financial resources and legally authorized activities of the County except those required to be accounted for in another fund.
- The *Public Safety Fund* is used to account for the law enforcement activities of the County and includes the functions of the Sheriff, the District Attorney, and the Probation Department.

The County reports the following major proprietary funds:

- The *Solid Waste Fund* accounts for the activities of solid waste collection and disposal and septage disposal.
- The *West Central Landfill Fund* is used to account for the activity associated with replacement and improvement of the County's landfill.

Note 1: Summary of Significant Accounting Policies (continued)

D. **Basis of Presentation** (continued)

Fund Financial Statements (continued)

Additionally, the County reports the following fund types:

- *Internal Service Funds* account for vehicle operations, risk management, information technology, communications operations, janitorial services, and County utilities that provide services to other departments or agencies of the County, or to other governments, on a cost reimbursement basis.
- The *Investment Trust Fund* accounts for the external portion of the County Treasurer's investment pool, which commingles resources of legally separate local governments within the County in an investment portfolio for the benefit of all participants.
- *Agency Funds* are custodial in nature and do not involve measurement of results of operations. These funds account for assets held by the County in an agency capacity for individuals or other government units.

E. **Measurement Focus and Basis of Accounting**

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Nonexchange transactions, in which the County gives (or receives) value without directly receiving (or giving) equal value in exchange, include property and sales taxes, grants, entitlements, and donations.

In accordance with GASB Statement No. 20 "Accounting and Financial Reporting for Proprietary Funds and other Governmental Entities That Use Proprietary Fund Accounting", the County applies all applicable FASB pronouncements issued on or before November 30, 1989 unless those pronouncements conflict with or contradict GASB pronouncements. The County has elected not to apply FASB pronouncements issued after November 30, 1989.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this

COUNTY OF SHASTA

E. **Measurement Focus and Basis of Accounting** (continued)

purpose, the County considers revenues available if they are collected within two months of the end of the current fiscal period. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met. Expenditures generally are recorded when a liability is incurred. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The accounts of the County are organized on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds is maintained consistent with legal and managerial requirements.

F. **Cash and Investments**

The cash balances of substantially all funds are pooled and invested by the County Treasurer for the purpose of increasing earnings through investment activities. The pool's investments are stated at fair value based on market prices. Earnings of the investment pool are apportioned to the appropriate funds quarterly using a formula based on the average daily balance of each participating fund.

A trustee or fiscal agent manages cash and investments held separately from the pool, and these assets are reported in various funds as follows: the Juvenile Hall and Justice Center Improvement Project, as a component unit of the General Fund; the Housing Authority of Shasta County, as a component unit of Special Revenue Funds; the Housing Authority Trust Fund Account, as a component unit of Agency Funds; and the Solid Waste Fund, as a component unit of Proprietary Funds. Some cash and investments of the Shasta Joint Powers Financing Authority, a component unit of the General Fund, are accounted for in Capital Projects Funds.

For purposes of the accompanying statement of cash flows, the Enterprise and Internal Service Funds consider all highly liquid investments with a maturity of three months or less when purchased, and their equity in the County Treasurer's investment pool, to be cash equivalents.

COUNTY OF SHASTA

Notes to Financial Statements June 30, 2008

Note 1: Summary of Significant Accounting Policies (continued)

G. Receivables and Payables

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "advances to/from other funds". All other outstanding balances between funds are reported as "due to/from other County funds". Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances". Advances between funds are offset by a corresponding reservation of fund balance to indicate that they are not available for appropriation and are not expendable available financial resources.

The County only accrues revenues at fiscal year-end and accrues only those revenues it deems collectible; as such the County has no allowance for doubtful accounts in its governmental funds.

The County accrues expenditures, and the associated liability, as they relate to budgeted appropriations. Goods encumbered by purchase orders and received after June 15th will not be utilized until after June 30, and therefore, these expenditures are not accrued in the current fiscal year. The budget of the following fiscal year is encumbered for these liabilities, and the expenditure is recorded when paid.

Notes receivable in governmental funds consist of non-current rehabilitation, CALhome, and redevelopment loans. The non-current portion of loans receivable are offset by reservation of fund balance.

H. Inventories and Other Assets

Inventory consists of expendable supplies held for consumption and is valued at the lower of cost (first-in, first-out) or market. The cost is recorded as an expenditure at the time individual inventory items are purchased and the balance is adjusted annually for goods on hand at the end of the fiscal year. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as other assets. The inventories and other assets recorded in the governmental funds do not reflect current appropriable resources and thus, an equivalent portion of fund balance is reserved.

I. Capital Assets

Capital assets, which include land, structures and improvements, equipment, and infrastructure (roads, bridges, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements.

COUNTY OF SHASTA

Notes to Financial Statements June 30, 2008

Note 1: **Summary of Significant Accounting Policies** (continued)

I. **Capital Assets** (continued)

Acquisitions of capital assets are recorded as expenditures in the governmental fund types at the time of purchase and are recorded in the Fixed Assets Accounting System. Capital assets in the proprietary funds are capitalized in the fund in which they are utilized.

Capital assets are recorded at historical cost or at estimated historical cost if purchased or constructed. In the case of structures and improvements, if historical costs were not available, engineering estimates were used to approximate historical cost. Donated capital assets are recorded at the estimated fair market value at the date of donation. Self-constructed assets are recorded at the amount of direct labor, material and capitalized interest costs.

Capital assets used in operations are depreciated or amortized (assets under capital leases) using the straight-line method over the lesser of the capital lease period or their estimated useful lives in the government-wide and proprietary fund financial statements. Estimated useful lives of the various classes of depreciable capital assets are as follows:

<u>Class</u>	<u>Useful Life Years</u>
Structures and Improvements	40 - 50
Equipment – Vehicles	3 - 10
Equipment – Other	5 - 10
Infrastructure – Roads	30
Infrastructure – Bridges	50

The costs of normal maintenance and repairs that do not add to the value of assets or materially extend asset lives are not capitalized. The capitalization thresholds are \$3,000 for equipment, \$25,000 for structures and improvements, and \$500,000 for infrastructure.

J. **Property Tax Levy, Collection and Maximum Rates**

The State of California's (State) Constitution Article XIII provides that the combined maximum property tax rate on any given property may not exceed one percent of its assessed value unless voters have approved an additional amount for the general obligation debt. Assessed value is calculated at 100 percent of market value, as defined by Article XIII A, and may not be adjusted by more than two percent per year unless the property is sold or transferred. The State Legislature has determined the

COUNTY OF SHASTA

Note 1: **Summary of Significant Accounting Policies** (continued)

J. Property Tax Levy, Collection and Maximum Rates (continued)

method of distribution of receipts from a one percent tax levy among the County, cities, school districts, and other districts. The County assesses properties, enrolls values, and collects property taxes as follows:

	Secured	Unsecured
Lien/Valuation date	January 1	January 1
Levy date	September 12	July 15
Due date	50% on November 1 50% on February 1	July 1
Delinquent as of	December 10 (Due November 1) April 10 (Due February 1)	August 31 (Due July 1)

The term "unsecured" refers to taxes on personal property. These taxes are not secured by liens on the property being taxed. Property taxes are recorded as receivables in the fiscal year of the levy and are recorded as revenue when collections are apportioned.

Effective July 1, 1993, the County began apportioning secured (and secured supplemental) property tax revenue in accordance with the alternative method of distribution (the Teeter Plan) prescribed by Section 4701 of the California Revenue and Taxation Code. Current secured/supplemental apportionments continue to follow "pre-Teeter" allocation methods based on collections until year-end. At year-end, the unpaid current secured/supplemental receivable balance is apportioned and each participating agency's delinquency is financed or "bought out" by the Teeter Plan.

The alternative method of distribution assures each participating agency receives their full current secured/supplemental collections while providing the County with future delinquent penalties and redemption interest on unpaid receivables. Under the Teeter Plan, specified amounts of delinquent or "abstract" secured or supplemental taxes are held in trust to provide revenue for future year "buy-outs" and to offset potential losses from the sale of tax-defaulted properties.

K. Lease Obligations

The County leases various assets under both operating and capital lease agreements. In the government-wide and proprietary fund financial statements, capital leases and the related lease obligations are reported as liabilities in the applicable governmental or business-type activities column of the Statement of Net Assets.

COUNTY OF SHASTA

Note 1: **Summary of Significant Accounting Policies** (continued)

L. Long-Term Debt, Deferred Debt Expense, and Bond Discounts/Premiums

In the government-wide and proprietary funds financial statements, outstanding debt is reported as a liability. Bond issuance costs, bond discounts or premiums, and the difference between the reacquisition price and the net carrying value of refunded debt are capitalized and amortized over the terms of the respective bonds using the straight-line method which is not materially different from the effective interest method.

The governmental fund financial statements recognize the proceeds of debt and premiums as other financing sources of the current period. Issuance costs are reported as expenditures.

M. Employee Compensated Absences

Full-time permanent employees accumulate earned but unused vacation leaves and sick pay benefits in varying amounts to specified maximums depending on status and tenure with the County. A liability for these amounts is accrued when incurred in the government-wide financial statements. Governmental funds report only matured compensated absences payable to currently terminating employees.

N. Fund Equity

The governmental fund financial statements report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

O. Use of Estimates

The preparation of basic financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

COUNTY OF SHASTA

Note 2: Cash in Treasury

A. Cash Management

As provided for by the California Government Code, the cash balances of substantially all funds are pooled and invested by the County Treasurer for the purpose of increasing interest earnings through investment activities. The investment pool is not registered within the Securities and Exchange Commission (SEC) and as required by the California Government Code, a treasury oversight committee provides oversight to the management of the pool. The respective funds' shares of the total pool are included in the accompanying combined balance sheet under the caption "Cash and Investments". These investments are stated at fair value. Interest earned on these investments is allocated quarterly to certain participating funds based on their daily cash in county treasury balances.

The County Treasurer determines the fair value of investments annually, at fiscal year-end, for the purpose of financial reporting. Participants may withdraw their investment from the pool on a dollar per dollar basis. School districts are considered involuntary participants in the investment pool and comprise 39 percent of the total treasury investment pool (including County Operational funds). Special districts and various trust funds approximate 4 percent of the investment pool and the extent of involuntary participation cannot be determined at this time. County operational funds comprise the remaining 57 percent of the investment pool.

At June 30, 2008, total County cash and investments were as follows:

Cash:

Cash on hand and imprest cash	\$ 821,994
Deposits	8,824,473
Total cash and deposits	<u>9,646,467</u>

Credit Risk

State law and the County's Investment Policy limit investments in commercial paper to the rating of A1 by Standards & Poor's or P-1 by Moody's Investors Service. State law and the County's Investment Policy also limit investments in corporate bonds to the rating of A by Standard & Poor's and Moody's Investors Service. The County does not have credit limits on government agency securities.

Concentration of Credit Risk

At June 30, 2008, in accordance with State law and the County's Investment Policy, the County did not have 5% or more of its net investment in commercial paper, corporate bonds or medium term notes of a single organization. Investments in obligations of the U.S. government, U.S. government agencies, or government-sponsored enterprises are exempt from these limitations.

The following is a summary of the credit quality distribution and concentration of credit risk by investment type as a percentage of the County Investment Pool's fair value at June 30, 2008.

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the County will not be able to recover the value of its investments or collateral security that are in the possession of an outside party. At year end, the County's investment pool and specific investments had no securities exposed to custodial credit risk.

Local Agency Investment Fund

The County Treasurer's Pool maintains an investment in the State of California Local Agency Investment Fund (LAIF), managed by the State Treasurer. This fund is not registered with the Securities and Exchange Commission as an investment company, but is required to invest according to California State Code. Participants in the pool include voluntary and involuntary participants, such as special districts and school districts for which there are legal provisions regarding their investments. The Local Investment Advisor Board (Board) has oversight responsibility for LAIF. The Board consists of five members as designated by State Statute.

At June 30, 2008, the County's investment position in the State of California Local Agency Investment Fund (LAIF) was \$35,000,000, which approximates fair value and is the same as value of the pool shares. The total amount invested by all public agencies in LAIF on that day was \$69,955,386,488; 100% of which was invested in other non-derivative financial products.

B. Allocations of Interest Income Among Funds

Interest income from pooled investments is allocated first to those funds, which are required by law or administrative action to receive interest, and then to the Proprietary Funds. Interest is allocated on a quarterly basis based on the aggregate daily cash balance in each fund.

Cash and investments held separately from the pool are managed by a trustee or fiscal agent; include those for the Juvenile Hall and Justice Court Improvement Project, Housing Authority of Shasta County, Shasta Joint Powers Financing Authority, Solid Waste reserves, and Information Systems financing. Investments are stated at fair value.

C. Authorized Investments

The table below identifies the investment types that are authorized for the County by the California Government Code or the County's investment policy, where more restrictive. The table also identifies certain provisions of the County's investment policy that address interest rate risk, credit risk, and concentration risk.

C. **Authorized Investments** (continued)

**The Treasury may invest only in commercial paper, medium-term notes, and inactive public deposits that are rated A or its equivalent or better by a nationally-recognized rating service.

Investments for bond proceeds and funds held by bond fiscal agent or trustees are governed and restricted by the bond documents. The permitted investment language in each bond transaction is usually unique to each transaction and at times can either be more permissive or less permissive than the County's investment policy over other investments.

D. **Fair Value of Investments**

Accounting pronouncement GASB Statement No. 31 generally applies to investments in external investment pools (State of California LAIF and other government sponsored investment pools), investments purchased with maturities greater than one year, mutual funds, and certain investment agreements. Generally, governmental entities need to report the "fair value" changes for these investments at year-end and record these gains or losses on their income statement. The County does not present realized and unrealized gains or losses on separate items on the face of its financial statements or in its note disclosures.

E. **Methods and Assumptions Used to Estimate Fair Value**

The County adjusts its investment accounting records to "fair value" at fiscal year end. The County's investment custodian provides market values on each investment instrument on a monthly basis. The investments held by the County are widely traded and trading values are readily available from numerous published sources. Unrealized gains and losses are recorded at fiscal year end and the carrying values of its investments at fiscal year end are considered "fair value".

Note 3: **Notes Receivables**

Notes receivables at year-end in the amount of \$8,486,472, as reported in the governmental non-major funds, include \$2,333,038 in loans to individuals for housing rehabilitation, and \$5,288,877 for the purchase of a home. The maximum original amount of these notes is \$20,000 per owner occupied home or \$20,000 per housing unit for rental owners. The maximum term of these notes is 30 years and the annual interest rate varies from no interest to 6 percent.

Interest payments and lease revenue bonds are serviced by revenues generated from lease payments made by the General Fund on lease facilities. Capital lease obligations are paid from the general fund. Claims and judgments will be paid from the County's risk management internal service funds. A majority of the claims are paid through internal service fund charges to the general fund and enterprise funds. Compensated absences liabilities will be paid by several of the County's funds, including the general fund, special revenue funds, and internal service funds.

C. Compensated Absences/Sick Time

Accumulated vacation, compensated time, administrative leave, unused holiday time, and a percentage of the accumulated sick pay (the percentage varies based on length of employment and whether management or non-management employee status), is payable upon termination. Such amounts are not accrued in governmental funds, but are recorded as long-term liabilities on the Statement of Net Assets. Non-vested sick pay benefits payables due to illness of employees are recorded as expenditures when paid.

Note 8: **Landfill Closure and Postclosure Costs**

A. **Estimated Liability for Solid Waste Landfill Closure and Postclosure Maintenance Costs**

The County currently owns and maintains the West Central Landfill site. State and federal laws and regulations require that the County place a final cover on the landfill when closed and perform certain maintenance and monitoring functions at the landfill site for 30 years after closure. In addition to operating expenses related to current activities of the landfill, an estimated liability is being recognized based on the future closure and postclosure maintenance costs that will be incurred near or after the date the landfill no longer accepts waste. The estimated total current cost of the landfill closure and postclosure maintenance costs is \$25,200,000 based on the amount that would be paid if all equipment facilities and services required to close, monitor, and maintain the landfill were acquired as of the balance sheet date. However, the costs for landfill closure and postclosure maintenance costs are based on yearly estimates, reviewed by the California Integrated Waste Management Board, as prepared by the county public works department. At June 30, 2008 the estimated percentage usage (filled) of the landfill site was 60.42 percent and the County has recognized an estimated liability of \$15,225,782 for the County landfill site for closure and postclosure maintenance costs. It is estimated that an additional \$9,974,218 liability will be recognized as closure and postclosure costs between the date of the balance sheet and the date the landfill is expected to be filled to capacity.

These cost estimates are subject to change based on such factors as inflation or deflation, changes in technology, or changes in federal or state landfill laws and regulations. The County expects that future inflation costs will be paid from the interest earnings on these contributions.

State and federal laws and regulations require the County to make annual contributions to finance closure and postclosure maintenance costs. The County has established an enterprise fund to maintain these monies.

The landfill is technically not in compliance with the terms of its operating permit under Subtitle D of the Environmental Protection Agency. As stated above, the estimated liability of the County landfill site closure and postclosure maintenance cost was \$15,225,782 and as of June 30, 2008 the County has set aside \$7,549,800, resulting in an unfunded liability of \$7,675,982. The County has developed a plan to address this situation, avoiding any substantial increases in the tipping fees.

COUNTY OF SHASTA

Notes to Financial Statements June 30, 2008

Note 11: Risk Management

The County has a Risk Management Fund (Internal Service Fund) to consolidate the County's Workers' Compensation and General Liability insurance programs that are partially self-insured. Fund revenues are primarily premium charges to other funds and are planned to equal estimated payments resulting from self-insurance programs, liability insurance coverage in excess of the self-insured amount, and operating expenses.

The County maintains a self-insured retention (SIR) of \$250,000 per occurrence for its general liability program. Losses, which exceed the SIR, are covered by an excess insurance policy purchased through CSAC Excess Insurance Authority.

The County maintains a self-insured retention (SIR) of \$250,000 per occurrence for its Workers' Compensation Program. Losses, which exceed the SIR, are covered by an excess insurance policy purchased through the CSAC Excess Insurance Authority.

The actuarially determined outstanding claims liability including incurred but not reported claims and expense liability adjustment (at 80 percent confidence level, after recognition of anticipated investment income) as of June 30, 2008, were as follows:

General liability	\$ 1,807,000
Workers' compensation	<u>14,286,000</u>
Total	<u>\$ 16,093,000</u>

Unpaid Claims Liabilities

The County of Shasta establishes claims liabilities based on estimates of the ultimate costs of the claims that have been reported but not settled, and of claims that have been incurred, but not reported (IBNR). The length of time for which such costs must be estimated varies depending on the type of insurance involved. Estimated amounts of salvage and reinsurance recoverable are considered in developing the estimates. Because actual claims costs depend on many complex factors, the process used in computing claims liabilities does not necessarily result in an exact amount. In estimating the liability, reliance is placed on both actual historical data and on other factors that are considered to be appropriate modifiers of past experience. Adjustments to claims liabilities are charged or credited to expense in the periods in which they are made.

Unpaid Claims Liabilities (continued)

As discussed above, the County of Shasta established a liability for both reported and unreported insured events, which included estimates of both future payments of losses and related claim adjustment expenses. The following represents changes in those aggregate liabilities for the fund at June 30, 2008 and 2007:

	<u>2008</u>	<u>2007</u>
Balance, Beginning of Year claims liability	\$16,327,000	\$14,880,000

Claim payments	<u>(2,935,434)</u>	<u>(3,163,449)</u>
Balance, End of Year	<u>\$16,093,000</u>	<u>\$16,327,000</u>

Note 12: **Employee Retirement Systems**

A. **Plan Description**

The County of Shasta's defined benefit pension plan, County Employees Retirement Plan, provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. The County Employees Retirement Plan is part of the Public Agency portion of the California Public Employees Retirement System (CalPERS), an agent multiple-employer plan administered by CalPERS, which acts as a common investment and administrative agent for participating public employers within the State of California. A menu of benefit provisions as well as other requirements is established by State statutes within the Public Employees' Retirement Law. The County of Shasta selects optional benefit provisions from the benefit menu by contract with CalPERS and adopts those benefits through local ordinance (other local methods). CalPERS issue a separate comprehensive annual financial report. Copies of the CalPERS' annual financial report may be obtained from the CalPERS Executive Office, 400 P Street, Sacramento, CA 95814.

COUNTY OF SHASTA

Notes to Financial Statements June 30, 2008

Note 12: Employee Retirement Systems (continued)

B. Funding Policy

Active plan members in the County Employees Retirement Plan are required to contribute 7.0 percent for miscellaneous employees and 9.0 percent for safety employees of their annual covered salary. Based on the various bargaining units the County pays all or a portion of qualified employees required contributions (employer paid member contributions). The County of Shasta is required to contribute the actuarially determined remaining amounts necessary to fund the benefits for its members. The actuarial methods and assumptions used for determining the rate are those adopted by the CalPERS Board of Administration. The required employer contribution rate for fiscal year 2007-2008, was 10.894 percent for miscellaneous employees and 26.518 percent for law enforcement officers. The contribution requirements of the plan members are established by State statute and the employer contribution rate is established and may be amended by CalPERS.

C. Annual Pension Cost

For fiscal year 2007-2008, the County of Shasta's annual pension cost was \$15,475,595 (consisting of employer contributions of \$10,658,859 and employer paid member contributions of \$4,816,736) and the County of Shasta actually contributed \$15,475,595. The required contribution for fiscal year 2007-2008 was determined as part of the June 30, 2006 actuarial valuation using the entry age normal actuarial cost method with the contributions determined as a percent of pay. The three-year trend information for the Miscellaneous and Safety Plan is as follows.

Fiscal Year Ending	Annual Pension			Percentage of APC Contributed	Net Pension Obligation

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

E. **Actuarial Methods and Assumptions**

In the June 30, 2007 valuation, the entry age actuarial cost method was used. The actuarial assumptions included (a) 7.75 percent investment rate of return (net of administrative expense); (b) projected salary increases that vary by duration of service ranging from 3.25 percent to 14.45 percent for miscellaneous members (from 3.25 percent to 13.15 percent for safety members), and (c) 3.25 percent cost-of-living adjustment. Both (a) and (b) include an inflation component of 3.0 percent. The actuarial value of County Employees Retirement Plan's assets was determined using a technique that smoothes the effect of short-term volatility in the market value of

investments over a three-year period depending on the size of investment gains and/or losses. County Employees Retirement Plan's unfunded actuarial accrued liability (or excess assets) is being amortized as a level percentage of projected payroll on a closed basis. The remaining amortization period at June 30, 2008, was 19 years for the miscellaneous plan and 22 years for the safety plan.

Note 13: **Other Post-Employment Benefits**

From an accrual accounting perspective, the cost of post-employment healthcare benefits, like the cost of pension benefits, generally should be associated with the periods in which the cost occurs, rather than in the future year when it will be paid. In adopting the requirements of GASB Statement No. 45 during the year ended June 30, 2008, the County recognizes the cost of post-employment healthcare in the year when the employee services are received, reports the accumulated liability (benefit) from prior years, and provide information useful in assessing potential demands on the County's future cash flows. Recognition of the liability accumulated from prior years will be phased in over 30 years, commencing with the 2008 liability.

A. **Plan Description**

The County provides continuation of medical insurance coverage to employees that retire under the California Public Employees' Retirement System (CAPERS) (an agent multiple-employer plan administered by CalPERS) at the same time they end their service to the County. Based on collective bargaining agreements, the retiree and his or her beneficiaries receive this coverage for the life of the retiree. Healthcare benefits for non-union employees are similar to those of union employees. The retiree's share of premium cost based on the PEMHCA (CalPERS medical program) "unequal method" range from 0% to 100%, depending on the employee group and length of service. The remaining premium is shared by the County and active employees in accordance with bargaining agreements. The state legislation which covers CalPERS has established that the retirees receive the same healthcare benefits that are offered to the active employees and the retirees share of premium cost and the state may amend this legislation. Also under requirements of state and local law, the County pays the medical insurance coverage for employees that retire due to disability. The Board of Supervisors establishes and may amend the benefits offered.

COUNTY OF SHASTA

Notes to Financial Statements June 30, 2008

Note 13: **Other Post-Employment Benefits** (continued)

B. Funding Policy

The required contribution is based on projected pay-as-you-go financing requirements, with an initial \$12 million for the fiscal year ended June 30, 2008 to prefund benefits and 1% of payroll annually thereafter to the CERBT (CalPERS OPEB trust) and PARS trusts. The County is currently in the process of opening the irrevocable trusts. As of June 30, 2008 the \$12 million was held in the County Treasury Pool and will be transferred to the irrevocable trusts no later than December 31, 2008. The Board of Supervisors establishes and may amend the County's funding policy.

C. Annual OPEB Costs and Net OPEB Obligation

The County's annual other post-employment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

For fiscal year ended June 30, 2008, the County of Shasta's annual pension cost was \$15,233,132 and the County of Shasta actually contributed \$15,343,132. The required contribution for the fiscal year ended June 30, 2008 was determined as part of the June 30, 2007 actuarial valuation using the entry age normal actuarial cost method with the contributions determined as a percent of pay.

The Net OPEB Obligation is assumed to be zero as of July 1, 2007, the date the County implemented GASB 45.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements only presents one year because this is the year of implementation and multiyear trend information is not available.

COUNTY OF SHASTA

Notes to Financial Statements June 30, 2008

Note 13: **Other Post-Employment Benefits** (continued)

E. **Actuarial Methods and Assumptions**

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the June 30, 2007 valuation, the entry age actuarial cost method was used. The actuarial assumptions included (a) the discount rate is a select and ultimate assumption based on the portion of the ARC expected to be funded each year 4.50% for the portion of the ARC not funded (net of administrative expenses), 7.25% for the portion of the ARC funded, representing the average return on the combined CERBT (7.75% return) and PARS trust (6.75% return for the HighMark Moderate portfolio to be selected by the County); (b) projected salary increases that vary by duration of service ranging from 3.25 percent to 14.45 percent for miscellaneous members (from 3.25 percent to 13.15 percent for safety members); (c) 3.25 percent cost-of-living adjustment; and (d) projected healthcare cost increases of 9.75% through 2016 and 4.50% thereafter. Both (a) and (b) include an inflation component of 3.0 percent.

Implied subsidy has been included in the calculations based on estimated PERS Choice Premium. Actives and retirees charged the same premium under union plan, with overall demographics similar to County Trades and Crafts/Teamsters employees. All participants are assumed to be Medicare Part B eligible (and elect coverage).

The unfunded actuarial accrued liability (or excess assets) is being amortized over a fixed 30-year period as a level percentage of projected payroll beginning with the year ended June 30, 2008.

COUNTY OF SHASTA

Notes to Financial Statements June 30, 2008

Note 14: **Commitments and Contingencies**

A. Construction Commitments

At June 30, 2008, the County has commitments of approximately \$27.4 million for construction contracts awarded but not completed. The major contracts outstanding are for the Fall River Mills Airport Expansion Project and the Sacramento River Bridge Replacement Project at Airport Road.

B. Litigation

The County is subject to various lawsuits and claims involving public liability and other actions incidental to the ordinary course of County operations. In the opinion of management and legal counsel, the disposition of all litigations pending will not have a material effect on the County's financial statements.

C. Grant Revenues

The County recognizes as revenue grant monies received as reimbursement for costs incurred in certain federal and State programs it administers. Although the County's federal grant programs have been audited through June 30, 2008 in accordance with the requirements of the Federal Single Audit Act of 1997 and the related United States Office of Management and Budget Circular A-133, these programs may be subject to financial and compliance audits by the reimbursing agencies. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although the County expects such amounts, if any, to be immaterial.

Note 15: **Prior Period Adjustments**

Disallowed Reimbursable Costs from the State

During the current year the State Controller's Office performed an audit on the Shasta County Child Abduction and Recovery Program. The audit resulted in disallowed costs of \$248,557 for the period July 1, 2004 through June 30, 2006. Therefore, in the prior year, payables to other governments were understated \$248,557 and fund balance was overstated \$248,557 for the Public Safety Fund. There was no affect on prior year net change in fund balance.

Compensated Absences

In the prior year the calculation of sick leave for compensated absences did not take into account caps on the amount of sick leave eligible for payout as well as special rates that apply to the sick leave payouts.

COUNTY OF SHASTA

Notes to Financial Statements June 30, 2008

Note 15: Prior Period Adjustments (continued)

Compensated Absences (continued)

Therefore, in the prior year, the liability for compensated absences was overstated and net assets were understated \$1,771,921 for the Government Wide -- Governmental Activities. The affect on prior year change in net assets has not been determined.

In the prior year compensated absences for the internal service funds were recorded in the government wide statements but not in the individual internal service fund statements. Therefore, in the prior year, the liability for compensated absences was understated and net assets were overstated \$352,740 as follows:

Fleet Management Fund	\$ 13,250
Risk Management	\$ 26,816
Information Systems Fund	\$ 191,081
Facilities Management Fund	\$ 121,593

The affect on prior year net change in fund balance has not been determined.

Special Assessment Receivable

In the prior years special assessment taxes were collected and incorrectly recorded as revenue. The amounts collected should have reduced the special assessment receivable. Therefore, in the prior year special assessments receivables and retained earnings of CSA#3 were overstated \$62,177. The affect on prior year change in net assets was \$4,532.

Debt

In the prior year a \$14,000 prepayment of principal was incorrectly recorded as prepaid expense. Therefore the prior year prepaid expenses and outstanding debt were overstated \$14,000. There was no affect on prior year change in net assets.

Depreciation

In the prior years depreciation expense had been recorded incorrectly. Therefore in the prior year:

CSA # 2 Sugarloaf accumulated depreciation was overstated and retained earning was understated \$1,268. The affect on prior year change in net assets was a reduction of \$85.

CSA # 3 Castella accumulated depreciation was overstated and retained earning was understated \$6,396. The affect on prior year change in net assets was a reduction of \$426.

COUNTY OF SHASTA

Notes to Financial Statements June 30, 2008

Note 15: Prior Period Adjustments (continued)

Depreciation (continued)

CSA # 6 Jones Valley accumulated depreciation was understated and retained earning was overstated \$528,058. The affect on prior year change in net assets was an increase of \$35,204.

CSA # 8 Palo Cedro accumulated depreciation was understated and retained earning was overstated \$141,577. The affect on prior year change in net assets was an increase of \$7,580.

CSA # 11 French Gulch accumulated depreciation was understated and retained earning was overstated \$22,160. The affect on prior year change in net assets was an increase of 1,128.

CSA # 13 Alpine Meadow accumulated depreciation was overstated and retained earning was understated \$43,010. The affect on prior year change in net assets was an increase of \$459.

CSA # 17 Cottonwood accumulated depreciation was understated and retained earning was overstated \$765,121. The affect on prior year change in net assets was an increase of \$773.

CSA # 23 Cragview accumulated depreciation was understated and retained earning was overstated \$239. The affect on prior year change in net assets was an increase of \$9.

CSA # 25 Cottonwood accumulated depreciation was overstated and retained earning was understated \$689. The affect on prior year change in net assets was an increase of \$179.

Vehicle License Fee and Sales Tax Receivable

The vehicle license fee and sales tax receivable was not properly accrued in the prior year. Therefore, in the prior year due from other governments and retained earnings was understated as follows:

General Fund	\$ 2,591,312
Public Health Fund	\$ 876,982

The affect on prior year net change in fund balance was as follows:

General Fund	\$ 2,591,312
Public Health Fund	\$ 876,982

COUNTY OF SHASTA

Notes to Financial Statements June 30, 2008

Note 15: **Prior Period Adjustments** (continued)

CDBG Loans Receivable

In the prior year the CDBG loans receivable was incorrectly recorded in the amount of the loan agreements (including the unfunded portion) rather than the actual amount of the receivable. Therefore in the prior year notes receivable and fund balance of Shasta Housing Fund were overstated \$242,550. There was no affect on prior year net change in fund balance.

Home Loans Receivable

Home loans receivable were improperly not recorded in the prior year. Therefore in the prior year home loans and fund balance of Housing Home IPP Fund were understated \$4,792,996. There was no affect on prior year net change in fund balance.

Note 16: **Deficit Fund Equity**

The Shasta RDA special revenue fund had a deficit fund balance of \$104,634 at year end. The Shasta IHSS Public Authority special revenue fund had a deficit fund balance of \$130,713 at year end. The Permanent Road Divisions special revenue fund had an accumulated deficit fund balance of \$84,556 resulting from road construction expenditures financed by an advance from the roads Dust Mitigation fund. This advance is being repaid from special assessment parcel charges over a twenty year period. The West Central Landfill enterprise fund had deficit fund equity of \$4,552,624 resulting from transfers to Solid Waste Disposal Administration for general operations and the completion of improvements and expansion at the Landfill started in FY 2003-2004. The County plans to eliminate the deficit equity in subsequent years through a reduction in expenditures and/or subsidies from other funds.

COUNTY OF SHASTA

Required Supplementary Information For the Fiscal Year Ended June 30, 2008

BASIS OF BUDGETING

In accordance with the provisions of Section 29000 and 29143, inclusive, of the California Government Code and other statutory provisions, commonly known as the County Budget Act, the County prepares a budget for each fiscal year on or before August 30. Budgeted expenditures are enacted into law through the passage of an Appropriation Ordinance. This ordinance mandates the maximum authorized expenditures for the fiscal year and cannot be exceeded except by subsequent amendments to the budget by the County's Board of supervisors. An operating budget is adopted each fiscal year for all Governmental Funds.

Expenditures are controlled at the object level within budget units for the County. The object level within a budget unit is the level at which expenditures may not legally exceed appropriations. Any amendments for transfers of appropriations between departments or funds are authorized by the County Administrative Office and must be approved by the Board of Supervisors.

The Board of Supervisors must approve supplemental appropriations normally financed by unanticipated revenues during the year. Pursuant to Board Resolution, the County Administrative Office is authorized to approve any budget transfer within a budget unit provided that such approval does not exceed \$75,000 nor increase the total appropriations of the budget. Budgeted amounts in the budgetary financial schedules are reported as originally adopted and as amended during the fiscal year by resolutions approved by the Board of Supervisors.

The County uses an encumbrance system as an extension of normal budgetary accounting for the general, special revenue, and other debt service funds and to assist in controlling expenditures of the capital projects funds. Under this system, purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of applicable appropriations. Encumbrances outstanding at year-end are recorded as reservations of fund balance since they do not constitute expenditures or liabilities. Unencumbered appropriations lapse at year-end. Encumbered appropriations are carried forward in the ensuing year's budget.

The amounts reported on the budgetary basis differ from the basis used to present the basic financial statements in accordance with generally accepted accounting principles (GAAP). Annual budgets are prepared on the modified accrual basis of accounting plus encumbrances for governmental fund types and on the accrual basis plus encumbrances for proprietary funds. Intrafund transfers (transfers between operating units in the same governmental type fund) are included in the Budgetary Comparison Schedules as Other Financing Sources (uses) transfers in or out. The effects of these intrafund transfers are eliminated in the fund financial statement to conform with GAAP.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS***

Board of Supervisors and Grand Jury
County of Shasta
Redding, California

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Shasta, as of and for the year ended June 30, 2008, which collectively comprise the County's basic financial statements and have issued our report thereon dated December 23, 2008. Our report was modified to include a reference to other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Other auditors audited the financial statements of the Shasta Regional Transportation Planning Agency and the Shasta County Children and Families Commission, as described in our report on the County of Shasta's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the County of Shasta's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

Board of Supervisors and Grand Jury
County of Shasta

Internal Control Over Financial Reporting (continued)

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph of this section and would not necessarily identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County of Shasta's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information of the audit committee, management, the Board of Supervisors, and federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

**REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH
MAJOR PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN
ACCORDANCE WITH OMB CIRCULAR A-133**

Board of Supervisors and Grand Jury
County of Shasta
Redding, California

Compliance

We have audited the compliance of the County of Shasta, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2008. The County of Shasta's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the County of Shasta's management. Our responsibility is to express an opinion on the County of Shasta's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County of Shasta's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the County of Shasta's compliance with those requirements.

In our opinion, the County of Shasta complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2008. However, the results of our auditing procedures disclosed instances of noncompliance with those requirements, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as items 08-SA-1 and 08-SA-2.

Board of Supervisors and Grand Jury
County of Shasta

Internal Control Over Compliance

The management of the County of Shasta is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the County of Shasta's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County of Shasta's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in the entity's internal control that might be significant deficiencies or material weaknesses as defined below. However, as discussed below, we identified certain deficiencies in internal control over compliance that we consider to be significant deficiencies and others that we consider to be material weaknesses.

A *control deficiency* in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that non-compliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as items 08-SA-1 and 08-SA-2 to be significant deficiencies.

A *material weakness* is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material non-compliance with a type of compliance requirements of a federal program will not be prevented or detected by the entity's internal control. Of the significant deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs, we consider item 08-SA-2 to be a material weakness.

The County's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit the County's response and, accordingly, we express no opinion on it.

Schedule of Expenditures of Federal Awards

We have audited the financial statements of the governmental activities, and business-type activities, each major fund, and the aggregate remaining fund information of the County of Shasta as of and for the year ended June 30, 2008, and have issued our report thereon dated December 23, 2008. Our audit was performed for the purpose of forming opinions on the

Board of Supervisors and Grand Jury

Schedule of Expenditures of Federal Awards (continued)

financial statements that collectively comprise the County's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements.

Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole. The Supplementary Statements of Grant Expenditures have not been subjected to auditing procedures applied in the audit of the basic financial statements, and accordingly, we express no opinion on them.

This report is intended solely for the information and use of the audit committee, management, the Board of Supervisors, others within the entity, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

COUNTY OF SHASTA

Notes to Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2008

Note 1: **Reporting Entity**

The accompanying Schedule of Expenditures of Federal Awards presents the activity of all federal awards programs of the County of Shasta. The County of Shasta's reporting entity is defined in Note 1 to the County's basic financial statements. All federal awards received directly from federal agencies as well as federal awards passed through other government agencies are included in the schedule.

Note 2: **Basis of Accounting**

The accompanying Schedule of Expenditures of Federal Awards includes the federal grant activity of the County and is presented on Generally Accepted Accounting Principles. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in or used in the preparation of the basic financial statements.

Note 3: **Relationship to Financial Statements**

The amounts reported in the accompanying Schedule of Expenditures of Federal Awards agree, in all material respects, to amounts reported within the County's financial statements. Federal award revenues are reported principally in the County's financial statements as intergovernmental revenues in the General and Special Revenue funds and grant revenue in the Enterprise funds.

Note 4: **Subrecipients**

Of the federal expenditures presented in the Schedule of Expenditures of Federal Awards, the County of Shasta provided federal awards to subrecipients as follows:

Federal CFDA	Program Title	Amount Provided to Subrecipients
16.575	Child Abuse Treatment Program	\$ 153,396
16.590	Domestic Violence Accountability Program	94,069
20.600	State and Community Highway Safety	12,522

	Total	<u>\$ 577,577</u>

COUNTY OF SHASTA

Notes to Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2008

Note 6: **Total Federal awards expended by CFDA Number**

When there is more than one program under a single CFDA number, the Schedule of Expenditures of Federal Awards totals all programs under the one CFDA number. Occasionally, however, this total could not be conveniently displayed because all programs under one CFDA number were not contiguous. When this occurred, this total is not shown in the Schedule, but instead is provided below:

<u>CFDA No.</u>	<u>Total Federal Expenditures</u>
10.561	\$ 2,679,084
16.738	433,251
20.600	335,404
93.778	7,378,115

Note 7: **Pass-Through Entities' Identifying Number**

When federal awards were received from a pass-through entity, the Schedule of Expenditures of Federal Awards shows, if available, the identifying number assigned by the pass-through entity. When no identifying number is shown, the County either determined that no identifying number is assigned for the program or was simply unable to obtain an identifying number from the pass-through entity.

CFDA 20.205	<i>Compliance Requirement: Reporting</i>
Award No. n/a	<i>Reporting Requirement: Significant Deficiency and Material</i>
Year: 2007/2008	<i>Non-Compliance in Relation to a Compliance Requirement</i>
	<u>Criteria</u>
	<p>According to the Statement on Auditing Standard No. 112, Communicating Internal Control Related Matters Identified in an Audit (SAS 112), applies to the Department's fiscal audit. The standard provides guidance in that if an entity is unable to draft its own financial statements or detect and correct errors in statements compiled by others, there may be a material weakness or significant deficiency. External auditors cannot be part of the Department's internal controls, including controls over the preparation of the financial statements, and are prohibited from auditing their own work as doing so impairs their independence.</p>
	<p>The Schedule of Expenditures of Federal Awards (SEFA), while not a part of the basic financial statements, is audited in relation to the basic financial statements, in accordance with the requirements of OMB Circular A-133.</p>
	<u>Condition</u>
	<p>During our audit we observed that total federal expenditures for the Airport Road project (County project number 703912 and federal project number BRLS-5906 (055) were under reported by the County. The County reported the federal expenditures for these projects at \$5,335,422, while the correct number was \$7,250,759. Federal expenditures were, therefore, under reported on the Highway Planning and Construction grant by \$1,915,337.</p>
	<u>Questioned Costs</u>
	<p>No costs are questioned.</p>

<u>Finding/Program</u>	<u>Findings/Noncompliance</u>
Finding 08-SA-1 (continued)	<u>Perspective</u>
Highway Planning and Construction CFDA 20.205	We do not believe any further information would provide better perspective.
	<u>Effect of Condition</u>
	Not being able to properly identify all federal expenditures by program at the Department level could cause a material misstatement on the Schedule of Expenditures of Federal Awards. This could lead to action by federal and state grantor agencies, and may result in additional audit costs if the misstated information leads to changes in audit requirements.
	<u>Recommendation</u>
	The current financial system the County is using includes a "Project Accounting System". We recommend that all of the County Departments use this project accounting system to track the grant activity. A separate project number should be used for each grant.
	<u>Corrective Action Plan</u>
	The Department, in preparing the Schedule of Federal Awards, will be more diligent in reviewing accruals when reconciling to the general ledger.
	The contact person for this corrective action plan is Ken Cristobal, Staff Services Manager. His telephone number is 530-225-5661.

Year: 2007/2008	<i>Non-Compliance in Relation to a</i> <i>Compliance Supplement Audit Objective</i>

Criteria

The Child Support Department (Department) must attempt to secure medical support information, and establish and enforce medical support obligations for all individuals eligible for services under 45 CFR section 302.33. Specifically, the Department must determine whether the custodial parent and child have satisfactory health insurance other than Medicaid. If not, the Department must petition the court or administrative authority to include medical support in the form of health insurance coverage and/or cash medical support in all new or modified orders for support be provided by either or both parents. The Department is also required to establish written criteria to identify cases not included above, where there is a high potential for obtaining medical support based on: (a) available evidence that health insurance may be available to either or both parents at reasonable cost, and (b) facts (as defined by the State) which are sufficient to warrant modification of an existing support order to include health insurance coverage for a dependent child(ren). For cases meeting the established criteria, the agency shall petition the court or administrative authority to modify support orders to include medical support in the form of health insurance coverage and/or payment for medical expenses incurred on behalf of the child (45 CFR sections 303.31(b)(1)-(4) and DRA, Section 7307).

Condition

We tested 24 cases and noted one case where medical support obligations were not established and enforced.

Child Support Enforcement CFDA 93.563	<u>Perspective</u> The exception rate in the sample was 4%. <u>Effect of Condition</u> Securing and enforcing medical support obligations for the custodial parent and child(ren) is a vital function of this Department. Failure by the Department to secure and enforce such obligations could cause the federal government to be liable for the medical care costs through the Medi-Cal program. <u>Recommendation</u> The Child Support Department currently has procedures in effect to ensure that medical support obligations are secured and enforced. We recommend that the Child Support Department review the above exception and determine what went wrong and determine if additional procedures can be implemented to prevent recurrence of events such as occurred here. <u>Corrective Action Plan</u> To prevent future cases from failing medical support compliance, refresher training will be provided to staff by January 15, 2009, with emphasis on the following: <ul style="list-style-type: none">• All orders for support must contain a provision for health insurance. The order must state that a health assignment shall issue.• When a new case is opened with an existing order that does not contain a provision for health insurance, the case manager shall refer the case to the Legal Team for modification to include the medical language.• The National Medical Support Notice (NMSN) is the recommended instrument for enforcing medical support. The NMSN shall be served on the employer or group administrator
